8. Market how supplied

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity. Number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE

8. Well supplied

9. 1. *Standing Crops.*—Ragi, jola, thogari, avare, groundnut, paddy, sugarcane, horsegram, etc., are good.

2. *Harvest*—Nil.

3. *Sowing*—Nil.

10. Coolies find sufficient labour.

11. Cattle are reported to be generally healthy. Fodder is available.

KOLAR

8. Moderately supplied.

9. 1. *Seeds sown.*—Nil.

2. *Standing Crops.*—Ragi, paddy, avare, thogari, horsegram and sugarcane are reported to be in good condition.

3. *Crops harvested.*—Paddy is being harvested in some parts of Bangarpet Taluk.

10. Prospects of the season are reported to be hopeful. There was slight rainfall during the week in some Taluks. Fodder and water are available for cattle.

11. *Public Health.*—People and cattle are reported to be generally healthy but for prevalence of small-pox in some parts of Mulbagal, plague in some parts of Sidlaghatta and Black quarter for cattle in both taluks. Preventive measures have been taken to check the spread of the epidemics by the Public Health and Animal Husbandry Departments.

Standing crops such as ragi and paddy require rains.

TUMKUR

8. Fairly well supplied.

9. *Seeds sown.*—Paddy in parts of Pavagada Taluk, and Hibni jola and coriander in Tiptur Taluk.

Standing crops.—Ragi, jola, navane, horsegram, thogari, avare, are all reported to be in good condition. Paddy and sugarcane are also reported to be in good condition.

Crops harvested.—Yade ragi in parts of Sira Taluk.

10 *Public Health.*—Generally good except for the prevalence of small-pox in Sasalu, Settikere, Salkatte and Kamalapura villages in Chiknaikanahalli Taluk. Preventive measures are reported o have been taken to check the spread of the disease. Symptom of cholera is reported to be still continuing in Thimmammanahalli in Pavagada Taluk and action has been taken to check the spread of the disease.

11. Cattle are reported to be healthy throughout the District. Water and fodder are available. Labour available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District.

9. *Seeds sown.*—It is reported that Bengalgram, horsegram and greengram were sown in Heggaddevankote and bengalgram in Gundlupet Taluks; and paddy in some parts of Yelandur Taluk. The transplantation of paddy is in progress in Chamarajanagar, Gundlupet and in some parts of Yelandur Taluk.

Standing crops.—Such as paddy, ragi, avare, horsegram, castor and sugarcane are reported to be in good condition. But the pest attack on ragi crop is still persisting and causing damage in Krishnarajanagar and Heggaddevankote Taluks. It is reported by the Amildar, Nanjangud Taluk that ragi crop in some parts of his Taluk is also affected by a pest of insects. Agricultural Department are taking necessary measures to check further spread of the pest.

Crops harvested.—It is reported that kar-ragi and jola are being harvested in Mysore, Nanjangud and Gundlupet Taluks; and jola in Gundlupet Taluk and groundnut in Nanjangud Taluk.

10. (1) Prospects of the season are fair all over the District.

(2) The rainfall during the week in all the Taluks of the District except in Heggaddevankote, is sufficient for the standing crops. In Gundlupet Taluk it is reported that most of the tanks have impounded water by recent rains. But still heavy rains are required to fill the tanks in the Taluks of Gundlupet, Chamarajanagar, Hunsur and Yelandur.

(3) The recent rains have improved the situation in the affected taluks of Gundlupet, Chamarajanagar and Yelandur.

(4) Cooly and agricultural classes are finding employment. It is reported that most of the tank relief works in Gundlupet Taluk have been stopped as the tanks have received water and other relief works are in progress and they are providing sufficient employment to needy persons.

(5) Sufficient quantity of foodgrains are made available throughout the District subject to the overall allotments made to the District.

11. Public Health is generally good throughout the District except for the prevalence of plague in a few villages of Heggaddevankote Taluk. Necessary preventive measures have been taken to check the spread of the epidemic. Cattle are reported to be generally healthy. Water and fodder are fairly available throughout the District except in a few villages of Gundlupet Taluk where difficulty for drinking water is reported.

MANDYA.

8. Well supplied.

9. The standing crops of sugarcane in V. C. area and paddy and ragi in all the Taluks are in good condition.

Transplantation of paddy is completed all over the District.

10. Prospects of the season are reported to be fair.

11. The public Health is reported to be generally good all over the District except for the prevalence of Small-pox in Billanahalli Village in Mandya Taluk, and plague in Malagur Village in Krishnarajpet Taluk. Effective preventive measures have been taken to check the spread of the epidemics.

Cattle are reported to be healthy.

Water and fodder are available in sufficient quantities.

HASSAN.

8. Well supplied.

9. *The Standing crops—Viz.*, ragi, paddy, horsegram, sugarcane are reported in good condition in all Taluks.

It is reported that some of ragi fields in Hassan, Hole-Narsipur and Channarayapatna Taluks are infested with pest and the authorities of the Agricultural Department have taken necessary required measures to combat the disease.

Many tanks have received water and the ryots are very eager to grow kar paddy under them.

10. The prospects of the season are quite hopeful.

11. Cattle are reported to be healthy. Water and fodder are available for cattle.

SHIMOGA.

8. Generally Well supplied.

9. Groundnut is being harvested. Standing crops of paddy, ragi, jola, sugarcane and horsegram are reported to be in good condition. Paddy pest is reported to have been prevailing in Sagar Taluk. Preventive measures are being taken. Paddy crop at Haranahalli in Shimoga Taluk is attacked by silverpest. Preventive measures have been taken.

10. Prospect of the season is generally good.

11. Cattle are healthy in all the taluks except in Sagar Taluk where rinderpest and Holeroga are prevailing. Preventive measures have been taken.

Water and fodder are available.

CHIKMAGALUR.

8. Markets were fairly supplied but the prices of stapic commodities were very high.

9. (1) *Standing Crops.*—Paddy, ragi, jola, sugarcane chillies and cotton in Chikmagalur Taluk; ragi, paddy, chillies, avare, thogari, save, navane, cotton, castor, horsegram, jola and sugarcane in Kadur Taluk; paddy, ragi, mungarjola, horsegram, sugarcane, avare, hingar coriander and minor millets in Tarikere Taluk; paddy and sugarcane in Koppa, Mudgere and Narasimharajapura Taluks; and paddy and areca in Sringeri Jahagir.

(2) *Crops Sown.*—Nil.

(3) *Crops Harvested.*—Chillies in Chikmagalur Taluk, jola in Kadur Taluk and areca in Sringeri Jahagir.

Condition of the standing crops was generally good throughout the District. Water, fodder and labour were sufficiently available throughout the District.

10. Public health was generally good.

11. Cattle were generally healthy throughout the District except for the prevalence of 'ಮೊಚ್ಚೆ ಕಟ್ಟುರೋಗ' in parts of Kasaba, Baloor, Ganibeed and Kalasa Hoblis of Mudgere Taluk. Veterinary Department was addressed to take preventive measures. The Disease is reported to be prevailing for the last three months. The Animal Husbandry Department has to investigate into the disease.

CHITALDRUG.

8. Markets are reported to be well supplied except controlled commodities.

9. *Sowing.*—Sowing of bili jola in some parts of Chitaldrug Taluk; cotton, navane and transplantation of paddy in some parts of Chellakere Taluk; Bili jola, in Hiriyur Taluk, is reported to be in progress.

Standing Crops.—Ragi, jola, navane and cotton in Chitaldrug Taluk; dodda ragi and paddy in Chellakere Taluk; kaseri jola, ragi, thogari, cotton and navane in Holalkere Taluk; ragi, jola and til in Davangere Taluk; cotton, jola, ragi, groundnut, navane, horsegram, greengram and thogari in Haribar Taluk are reported to be in good condition. But in some parts of Haribar Taluk some disease is reported to be prevailing to the crops of jola and chillies. Action has been taken to prevent the disease. The condition of the standing crops in Molakalmuru Taluk is reported to be better than it was before.

Harvesting:—Harvesting of doddaragi in Chellakere Taluk; giddaragi, mungar jola and sugarcane in Hiriyur Taluk; kar jola, til and groundnut in Holalkere Taluk; groundnut and save in Davangere Taluk; jola in Hosadurga Taluk are under progress.

10. Cooly classes are finding sufficient labour throughout the District.

11. Cattle are reported to be generally healthy throughout the District.

Water is available throughout the District.

Fodder is available in the District except in Chellakere Taluk. The Amildar, Molakalmuru Taluk reports that there is no scarcity for fodder at present as green grass is available on account of recent showers. The Amildar, Challakere Taluk also reports that fodder is available for the present.

BANGALORE,
Dated 9th October 1950.

N. Z AFTAB AHMED KHAN,
For *Director.*

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, FOR THE WEEK ENDED THURSDAY, THE 12TH OCTOBER 1950.

A total of 20 attacks with 14 deaths from Plague was returned from 6 villages, in 5 taluks, in 3 districts during the week against 15 attacks with 12 deaths in the previous week. Cities of Bangalore, Mysore and Kolar Gold Fields Area reported free from Plague. Comparative figures for the corresponding week in 1949 and 1948 were 49 attacks with 21 deaths and 68 attacks with 41 deaths, respectively.

A total of 14 attacks with 4 deaths from Small-pox were reported from Bangalore Corporation, Kolar Gold Fields and from Mysore, and Mulbagal Taluks.

Eleven attacks with 4 deaths from Cholera were reported from Bangarpet, Molakalmuru and Srinivasapur Taluks.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 192 (61 in hospitals) for 7 days representing a calculated death-rate of 19·9 (13·6 excluding hospital deaths) per mille of population (annual basis) as against 27·9 for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 5 under Typhoid, 23 under Dysentery and Diarrhœa and 163 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 35 (14 in hospitals) for 5 days representing a calculated death-rate of 13·3 (9·7 excluding hospital deaths) per mille of population (annual basis) as against 24·2 for the corresponding week of last year. Classified according to causes the deaths were: Malaria 2, Typhoid 1, Other Fevers 1, 2, Dysentery and Diarrhœa and 29 All Other Causes. The reported mortality was very low.

There were 8 deaths (3 from hospitals) for 6 days from all causes in Kolar Golds Fields Area equivalent to a calculated death-rate of 2·7 (1·7 excluding hospital deaths) per mille of population (annual basis) as against 7·3 for the corresponding week of last year. Classified according to causes the deaths numbered 8 under All Other Causes. The reported mortality was very very low.

5328 T. CHANDRASEKHARAIYA, *Director.*

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

Notification dated 18th October 1950.

(HEALTH OF LIVE-STOCK DURING SEPTEMBER 1950).

In their order of severity, outbreaks of rinderpest, black-quarter, anthrax, hæmorrhagic-septicæmia, foot and mouth, contagious-goat-pleuro-pneumonia, ranikhet, rabies and sheep-pox were encountered in the State during September 1950. Altogether 218 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 258 villages during the previous month. The number of out-breaks was highest in Bangalore, Tumkur and Kolar Districts, while Hassan, Mandya and Shimoga Districts were least affected. These diseases accounted for 732 attacks, of which 610 succumbed as against 838 attacks and 622 deaths during the previous month. The departmental staff conducted 30,753 preventive inoculations and vaccinations against all the above diseases except foot and mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against foot and mouth disease.

As many as four out, breaks of rinderpest of which one was among sheep, were registered in Sagar, Thirthahalli and Davangere Taluks accounting for 40 attacks and 28 deaths. Prompt measures of control were undertaken by the department to check its spread and 276 cattle and 50 sheep including goats in the infected villages and 8,470 cattle and 1,908 sheep including goats in the neighbouring 23 villages extending over a radius of three miles were protected against the disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 105 villages resulting in 23 deaths, as against 119 villages accounting for 39 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 6,477 animals, as against 6,429 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.

5269 P. M. NARAINSWAMY NAIDU, *Director.*
